Time Record Details

Page 1

Person	Date	Client	Description	Duration
Al Macy	09/07/00	AR Software	Worked with some difficult keyboard mouse problems. Worst was the Delete key, which is an accelerator key, so it cannot be used in the edit controls. I tried to get around this, but no success so far.	4.75 Hours
	09/12/00	AR Software	Wrote up combined status report.	0.25 Hours
	06/04/02	AR Software	More Testing	0.00 Hours
Linda Johnson	09/05/00	Field and Marsh, Inc.	Wrote up some additional comments on error handling, faxed them to Steve R.	0.28 Hours
	09/13/00	Field and Marsh, Inc.	Attended meeting concerning management of Jenson Corp. DLL files. Also discussed Easy Image issues with Norman.	1.82 Hours
	09/19/00	Field and Marsh, Inc.	Made copies of the latest error handling dialogs.	0.00 Hours
Mary Smith	09/02/00	AR Software	Continued on the threshold save. Almost done with error checking and dialog mechanics.	2.58 Hours
	09/02/00	AR Software	Finished the threshold save for both mono and color images. Color image stuff needs to be verified. All needs some more testing.	4.03 Hours
	09/05/00	AR Software	Got threshold load working for monochrome images. Workswell.	4.58 Hours
	09/05/00	AR Software	Got color threshold load to work. Looksgood. Uploaded result.	2.88 Hours
	09/06/00	AR Software	Completed calibration retention changes, fixed macro recording problems, added ability to create unprotected versions. Started on keyboard mouse.	4.50 Hours
	09/07/00	AR Software	Worked on a number of issues for keyboard mouse: Using arrow keys to move around, added drag capability.	4.28 Hours
	09/08/00	AR Software	Continued on keyboard mouse problem. Still haven't solved the Del problem. Solved cursor movement when dialog inactive problem. Also added help to threshold I/O, standardized palettes, and keyboard mouse. Added menu info text strings for new features.	3.82 Hours
	09/08/00	AR Software	Added sessions saving of key mouse presence. Modified hotkeys in flood and auto measure setup dialogs. Added ability to save mouse keyboard with session info.	1.23 Hours
	09/09/00	AR Software	Finally solved some of the keyboard mouse issues. Put together final version, prepared diskettes for Jenson Corp..	3.67 Hours
	09/15/00	AR Software	Worked on the standardized palette problem. Discovered the reason for it, discussed solutions with Norman.	1.82 Hours
	09/16/00	AR Software	Wrote up combined status report	0.57 Hours
	09/16/00	AR Software	Worked on new standardized palette scheme. It gets a little tricky with several levels of indirection, but I think it will work.	2.53 Hours
	09/16/00	AR Software	Finished off standardized palette. It looksgood.	1.75 Hours
